POLICEMAN SAVES A BOY.

a Car.

Ten thousand people cross Broadway

jam the thoroughfare at that point, says the New York World. One of them yesterday was 10-year-old Harry Fox of 100 Washington street, who tried to cross the street with his arms full of newspapers. At the same moment cable car No. 8 came bowling along uptown. 'Look out!" yelled half a dozen men in the same breath. The boy jumped just as the car bound the other way bore down on him. A cry of horror went up from the eyewitnesses. They expected to see the boy lying mangled on the track when the two cars rolled by. Instead there lay Policeman William Schrieber of the Old Slip station. at full length between the tracks, unonscious. Clasped tightly to his breast was the boy, frightened half to death. but not a hair of his head hurt. The policeman was carried into a store on the corner, where he scon revived. "Where is the boy?" were his first words. They told him he was unhurt and full of gratitude for the policeman's brave act. Schreiger explained that just as he clasped the boy in his arms to lift him out of harm's way the handle-bar of car No. 8 hit him on the shoulder and threw him violently to the ground. Before consciousness left him. Schreiber said, he made a streauous effort to fall so that he might lie between the tracks. His head was badly bruised and his shoulder sprained, but beyond that he declared that his injuries were too trifling to report himself ill, so he went back to duty. The crowd cheered the plucky blue-coat again and again. and many passers-by stopped long enough to shake his hand. Schreiber has been on the force fifteen years, and has an excellent record.

Inventor Has

Adventure. An Italian inventor, named Corzetto. says La France Militaire, has constructed an apparatus which he calls Camille had speculated once more: that a "methydric sphere," and by means | suits. New Way to Catch Deer A Wisconsin man recently undertook the novel feat of catching a deer by the tail. While hunting he espied a fawn at a water hole. After it had finished drinking it lay down by a log. The farmer resolved to capture it alive if possible, and taking advantage of the noise made by the cattle going into the water hole to drink, he stole cautiously up and seized the fawn by its hind legs. In the struggle that ensued he lost that grip, but managed to obtain one on its tail. This he held during an exciting chase of a quarter of a mile. The underbrush that the fawn then ran into compelled him to relinquish his hold, and he had the satisfaction of seeing the animal rejoin the doe.
